Defendants.

18 Civ. 4335 (KPF)

ORDER

KATHERINE POLK FAILLA, District Judge:

During the final minutes of the telephonic status conference held on January 30, 2020, Plaintiff was disconnected from the conference. The Court was unable to get Plaintiff back on the call. To conclude the conference, the Court stated that it would issue a Case Management Plan, providing six months for fact discovery and two months for expert discovery. After the conference had concluded, Plaintiff called the Court directly and the Court was able to relay this information to Plaintiff. The Court also relayed to Plaintiff that he should receive waivers from Defendants in the next thirty days.

The Court will issue the Case Management Plan under separate cover.

SO ORDERED.
